#### POCKET WAND - INSTRUCTIONS

This device arrives to you approximately 70% charged. To maximize battery life, charge fully before using.

Connect your toy to a computer or wall USB charger with the USB cable provided.

The LED indicator light will be solid when toy is charging, and will begin to flash when the charge is complete.

This device will take up to 2 hours to charge completely, with less time for the initial charge.

When fully charged, toy will run for approximately 1.5 hours at the highest vibration level, and about 2.5 hours at the lowest level. It emits sound at approximately 40 decibels.

Toy vibration will cease completely when charge gets low.

There is no danger of 'overcharging' the Li-ion battery, as the toy has a built-in charging protection circuit. Working voltage is 3.7V and charging voltage is 5V.
