CHARGING INSTRUCTIONS

There is no need to fully charge this device before use.

Connect the USB plug into the USB port of your computer or other output and the other end of the DC charger into toy's input.

Initial charge will take about 2 hours, and subsequent charges also take about 2 hours to complete.

The indicator light will flash while device is charging, and remain solid when toy is fully charged. Play functions stop during charging. There is no danger of battery damage by overcharging, but it's recommended not to overcharge for long periods of time.

Charge lasts for about 60-70 minutes of play time on the highest vibration level, and about 90-100 minutes of play time on the lowest level.

Toy vibration slows before stopping completely when charge is low. LED light turns off when the battery dies.

This toy operates at a sound level of 60 db

INSTRUCTIONS FOR USE

To turn toy on, press the bottom 'power' button for at least two seconds.

Once toy is turned on, use the middle button to cycle through 7 different vibration speeds in the shaft. LED light behind this button will flash in accordance with each mode.

Use the top button to cycle through 3 different thrusting speeds. The LED light behind this button will get brighter as speed gets faster.

To turn toy off, press power button for at least two seconds.
