ZERO TOLERANCE

Product Specifications:

Material: Silicone + ABS
Toy battery: 380mah
Remote battery: 3.7V 120mah
Voltage: 3.7V
Number of Vibrations: 7
User time: Charge and discharge 2000 times
Sound Level: Less than 60Db

CHARGING INSTRUCTIONS: This prostate toy arrives with a minimal partial charge, so it is recommended to charge before use. Connect the USB plug into the USB port of your computer or other output and the other end of the DC charger into toy's input, which can be found at the base of the toy, below the control panel.
Initial charge will take about 2 hours, and subsequent charges will take about 3 hours to complete.
The LED light will flash while device is charging, and remain solid when toy is fully charged. There is no danger of battery damage by overcharging, but it's recommended not to overcharge for long periods of time.
Charge lasts for about 50 minutes of play time with average use.
Toy vibration slows before stopping completely when charge is fully depleted.
This toy operates at a sound level of 60db and a voltage level of 3.7V with a 380mAh battery.

INSTRUCTIONS FOR USE: This vibration of this toy can be operated with or without the remote control, but the heating function can only be activated with the button directly on the toy. There is no way to engage the heating function with the remote control. Both vibration motors are controlled together - one in the main shaft, and one at the base of the ring arm.

USING TOY'S CONTROL PANEL DIRECTLY:

Turn the toy on by pressing the Power Button, which is the top button that illuminates with a white LED light. Both motors will begin to vibrate at their lowest speed. Press the button again to cycle through 7 speeds of vibrations and functions. To turn off the motors, press the Power Button for at least 3 seconds.

To activate the heating function, press the Heating button, which is the bottom button that illuminates with a red LED light. The heating function has a built-in safety limit. The temperatures ranges between 98° - 107° Fahrenheit (37° - 42° Celsius). To turn off the heating function, press the Heating button for at least 3 seconds.

You can start the toy without the remote control, and then control it from the remote control after turning the remote on separately.

WITH REMOTE CONTROL: Turn the toy on, press the Power Button for at least 3 seconds. Both motors will begin vibrating at their lowest levels. Use the S-symbol button to cycle through 7 vibrating functions in both motors. Turn the toy off by pressing the Power Button for at least 3 seconds.

The remote control cannot operate the heating function. That is done directly on the toy, with the lower button that illuminates red.

You can start the toy directly with the Power Button at its base and then control it from the remote control after turning the remote on separately.

USB RECHARGEABLE

WARNING:

CONTAINS STRONG MAGNETS

STRONG MAGNETS AND MAGNETIC FIELDS CAN CAUSE SERIOUS INJURY OR DEATH BY INTERFERING WITH MEDICAL DEVICES LIKE PACEMAKERS, OR CAN DAMAGE ELECTRONIC DEVICES AND MAGNETIC MEDIA.
