

ROMANCE ROMY

Romy is an anal vibrator with a remote control that gives you multispeed vibrations. The control button is at the bottom of the ball shape, making it easy to turn the vibrator on or switch vibrations while it's inserted, though using the remote is the most convenient thing to do.

As the other Romance toys, Romy has a distinct ruby red colour and a luxurious appearance with the gold coloured ABS decoration on the remote and the diamond shaped texture on the narrow part of the plug. Smooth with a tapered tip for easy gliding, and full of technology inside. Romy has 10 vibration frequencies, so she can please your backdoor in various intensities. Both the vibrator and the remote are rechargeable with the included USB-pin cable. Romy is waterproof IPX 7 and 100% body safe. The vibrator and the remote are made of soft silicone and ABS, free of phthalates and free of latex.
