

## GP PRINTED DATEX STRIPED DRESS

A striking mini dress from the Guilty Pleasure collection, with wide black stripes made of latex printed on a soft and stretchable red knitted fabric. The transparent red fabric and the black Datex stripes follow the body curves smoothly. The mini dress is sleeveless, has a round neck line and closes with a zipper at the back side. The material is flexible and stretchable, ensuring great wearing comfort.

Datex is a revolutionary material made of natural rubber latex, printed on an elastic knitted fabric. The result is a very stretchable material with the looks and touch of latex on the outside and the softness and comfort of the stretchy fabric on the inside. The unique features of this material offer unlimited and revolutionary possibilities in the production of the clothing. These latex garments can be sewn in a traditional way without the gluing process as with latex. What's more, the seams are stronger thanks to the unique quality. This means hardly any customer complaints about defects.
